

Long Range Wireless Access Point / Client Bridge			EOC-2610
2.4GHz	108Mbps	802.11b/g/Super G	MSSID, WDS

EOC-2610 is a long range outdoor wireless Access Point / Client Bridge that operates seamlessly in the 2.4GHz frequency spectrum and provides high bandwidth up to 108Mbps with Super G. It features high transmitted output power and high receivable sensitivity. High output power and high sensitivity can extend range and coverage to reduce the roaming between Access Points to get a more stable wireless connection. It also reduces the expense of equipment in the same environment.

It supports distance control by 1km to 30km and RSSI indicator which enables the best transmit and receive signals for traffic communication. This product comes with PoE injector for building in outdoor environment easily.

To protect your wireless connectivity, it can encrypt all wireless transmissions through 64/128-bit WEP data encryption and also supports WPA/WPA2. The MAC address filter lets you select exactly which stations should have access to your network. In addition, the User Isolation function can protect the private network between client users.

The attractive design, high performance, and array of features make EOC-2610 a suitable wireless solution for your residence or office.

### Package Content

- 1\* 802.11b/g Long range AP/CB (EOC-2610)
- 1\* PoE Injector (EPE-1212)
- 1\* Power Adaptor
- 1\* CD with User's Manual
- 1\* QIG
- 1\* Metal strap
- 1\* Special screw set

\* Theoretical wireless signal rate based on IEEE standard of 802.11b, g chipset used. Actual throughput may vary. Network conditions and environmental factors lower actual throughput rate.

\*\* All specifications are subject to change without notice.

## Features

### Wireless

- **2.4GHz** It works in 2.4GHz frequency spectrum
- **High output power** Transmit high output power programmable for different country selections
- **High Data Rate** High speed transmitting rate up to 108Mbps with Super G, support large payload such as MPEG video streaming
- **Multifunction application** Access Point/Client Bridge/Client Router/WDS Function
- **Long range transmitting** Transmit power control and distance control (ACK timeout)
- **Narrow Bandwidth** Provide 5MHz/10MHz/20MHz bandwidth selection
- **Signal Strength Display** RF signal strength status shown LEDs of 3 colors, making network build-up easier. LED indicators have the best transmit and receive signal for traffic communication
- **Multiple SSID** 4 SSID supported. Each SSID can set itself wireless or WAN access setting.
- **QoS(WMM)** Enhance performance and density

### Networking

- **PPPoE** Point-to-Point Protocol over Ethernet at Client Router mode. This function will keep trying when failed or disconnected
- **PPTP** Point-to-Point Tunneling Protocol (PPTP) is a method for implementing virtual private networks
- **VPN Pass Through**

### Security

- **802.11i** WEP, WPA, WPA2 (Encryption support TKIP/AES)
- **MAC address functions** MAC address filter (AP mode)
- **802.1x** IEEE802.1x Authenticator
- **Station isolation**

### Management

- **Firmware Upgrade** Upgrading firmware via web browser, setting are reserved after upgrade
- **Reset & Backup** Reset to factory default. User can export all setting into a file via WEB
- **Ping & Trace Route** Built-in PING function & Trace Route function in Web GUI
- **MIB** MIB I, MIB II(RFC1213)
- **SNMP** V1, V2c

\* Theoretical wireless signal rate based on IEEE standard of 802.11b, g chipset used. Actual throughput may vary. Network conditions and environmental factors lower actual throughput rate.

\*\* All specifications are subject to change without notice.

## Technical Specifications

Hardware Specification	
MCU/RF	Atheros AR2316 Single Chip
Memory	32MB SDRAM
Flash	8MB
Physical Interface	One 10/100 Fast Ethernet RJ-45 One Reset Button One SMA Connector One switch (external and internal antenna switching)
LED indicators	Power/ Status LAN (10/100Mbps) WLAN (Wireless is up) 3 x Link Quality (Client Bridge mode) <ul style="list-style-type: none"> <li>• Green: Good Quality</li> <li>• Yellow: Marginally Acceptable Quality</li> <li>• Red: Bad Quality</li> </ul>
Power Requirements	Active Ethernet (Power over Ethernet) Proprietary PoE design Power Adapter 24V / 0.6A DC
Regulation Certifications	FCC Part 15C/15B, EN 300 328, EN 301 489-1/-17, EN60950

RF Specification																							
Frequency Band	<b>802.11b/g</b> 2.412~2.472GHz
